

Internal Floor Space: N/A

Total Footprint: 36m² (6m x 6m)

Doors: N/A

Blackout Dome: No

Power to inflate dome: Mains supply or 30kVA generator

Diameter at centre: 6 meters

Perfect for smaller locations, stages, exhibitions or anywhere you need an impressive visual impact!

The 6m VisionSphere differs from the StratoSphere as it's not a venue and show content can only be viewed from the outside. A small entrance in the shoulder allows technicians to enter and setup the AV equipment and then it remains sealed.

5 projectors are placed around the internal perimeter and synced together using the most up to date media servers available. This creates a completely seamless 360° video which can be used however you wish; a large, bespoke full dome show, multiple videos windows, text, logos - the only limit is your imagination.
